 **TESTIMONIALS**

SOLEX STREAMLINES INTERNET AND SECURITY SYSTEMS FOR BJ RESTAURANTS NETWORK

Brian Krakower, Chief Information Officer for BJ's Restaurants explains why he partnered with SolEx and why they are his vendor of choice for their large communications network:

"Our company is always growing and our communications needs are constantly evolving, so having a strong telecom provider that can shift quickly to keep up with our business is crucial."

"SolEx is the partner you've always wanted but didn't think truly existed. They lead with BJ's interests in mind, creatively and effectively innovating win-win solutions where all parties are set up for, and achieve success."

"Whether it's a standard cookie cutter new site comprehensive communications package, a system-wide upgrade, a one-off, or last minute request, our first and only call is to our partners at SolEx."

"Their structured, process oriented, customer-first approach, combined with startup-like agility gives us at BJ's the confidence to leverage mission critical technology and deliver a best-in-class hospitality experience for our team members and our guests."
